

Prevent Trauma: Preventing Fall-Related Injuries in Georgia

GEORGIA TRAUMA SYSTEM
SOCIAL MEDIA RESOURCES

WWW.PREVENTTRAUMAGEORGIA.ORG

INTRODUCTION

The Georgia trauma system works to save lives and provide the best possible outcomes through improved trauma care and injury prevention. While falls are the leading cause of injury and death for Georgians 65 and older, the impact of fall-related injuries can affect the lives of people of all ages. More than 95% of hip fractures are caused by falling, and falls are the most common cause of traumatic brain injuries. Falls accounted for 44.3% of cases in the 2019 Georgia Trauma Registry data, with the frequency of fall-related injuries increasing in children under age nine and adults over 60.

Falls accounted for 44.3% of cases in the 2019 Georgia Trauma Registry data.

More than 95% of hip fractures are caused by falling.

Injuries caused by falling represent a serious health concern. Trauma system partners play an essential role in reducing the burden of injury through providing community-based education aimed at risk factor reduction and the delivery of evidence-based fall prevention programming. This guide is designed to help trauma centers and partners utilize social media platforms to support and promote fall prevention in older adults.

GETTING STARTED

Are you ready to work to raise awareness and prevent falls injuries in Georgia?

Each year, beginning the first week of Fall and beyond, we work with our partners around the state to celebrate National Falls Prevention Awareness month through social media campaigns, community outreach, and professional education. We would be honored to have you partner with us in our work to prevent injury, save lives, and empower Georgians to make our communities safer.

Partners are encouraged to combat fall-related injury:

- Raising awareness of fall-related injuries, associated risk factors, and fall prevention efforts
- Affirming that fall-related injuries and deaths are preventable
- Recognizing the importance of the community and families in prevention efforts
- Providing resources and support to engage communities in fall prevention efforts
- Working with local partners to implement fall prevention programming

SOCIAL MEDIA RESOURCES

This guide includes sample posts and graphics for your use, or you can create your own messages tailored to your organization and community. As Trauma System Partners, you are welcome to select various versions of the graphics and co-brand the materials to suit your needs. If you find you need any assistance with making color modifications, size manipulations, or co-branding, feel free to email outreach@preventtraumageorgia.org. Additional resources and tools can be accessed online at: www.preventtraumageorgia.org.

Be sure to use **#PreventFallsGeorgia #PreventTrauma #FallsFreeGA** in all your posts to strengthen our collective voice and raise awareness during Fall Prevention Awareness Week!
