

EMS Region 5: Regional Trauma Educational Needs Assessment 2024

Region 5 Regional Trauma Advisory Committee

Trauma care knowledge and skills must be continuously updated, refined, and expanded through targeted trauma education. The Region 5 RTAC works in collaboration with the Georgia OEMS&T, Region 5 EMS Education and Training Committee, and trauma system stakeholders to assess the region's educational needs and address any identified gaps to drive regional trauma system improvement.

Please take a few moments to complete our regional survey.

Important: Reports generated from this survey will not include the names of respondents or their organizational affiliations. Instead, the information obtained will be presented as a regional overview.
